

**FOR IMMEDIATE RELEASE**

## **Cadence Completes Pennsylvania Facility Expansion, Expands Class 7 (10,000) Cleanroom**

**STAUNTON, Va. (September 14, 2022)** – Cadence, Inc., a leading contract manufacturer of medical and drug delivery devices, announced today the completion of its Product Realization Center™ expansion located in Cranberry Township, Pennsylvania. The facility now totals 42,000-square-feet. Construction is currently underway to double the size of its Class 7 (10,000) cleanroom with a completion date set for mid-December 2022.

“We have chosen all materials, equipment, and building designs that duplicate the current cleanroom space,” stated Mark Carper, Director of Operations at Cadence’s Pennsylvania facility. “Construction is planned to minimize downtime of the current cleanroom by building the additional cleanroom adjacent to the existing space.”

The entire cleanroom space will be re-certified to our controls and ISO Class 7 standards by December 11<sup>th</sup>.

**About Cadence, Inc.** – Cadence is a full-service contract manufacturing partner, providing initial product design and development through complete manufacturing. Vertical integration enables Cadence to supply end-to-end product realization solutions focused on best-in-class total value for finished devices. Cadence employs over 550 people with its corporate headquarters in Staunton, Virginia and has additional locations in Connecticut, Pennsylvania, Rhode Island, and Wisconsin.
